

NIPTy (Non-Invasive Prenatal Testing) Quick Guide to Our Plans

Hiro Clinic offers a variety of plans. You can decide on a plan after consulting with our staff.

● MHLW Designated Intractable Diseases Plan 《Premium》

The most comprehensive top-tier plan

*Available from July 2026

- Aneuploidy of chromosomes 1-22
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- All-Chromosome Partial Deletion and Duplication Syndromes
- 143 Microdeletion and Microduplication Syndromes
- NIPTy-MONO

F143 MONO

600,000 JPY
660,000 JPY incl. tax

The well-proven Balance Plan

- Aneuploidy of chromosomes 1-22
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- All-Chromosome Partial Deletion and Duplication Syndromes
- 143 Microdeletion and Microduplication Syndromes

F143

400,000 JPY
440,000 JPY incl. tax

● MHLW Designated Intractable Diseases Plan

Screens for risks across all chromosomes

- Aneuploidy of chromosomes 1-22
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- All-Chromosome Partial Deletion and Duplication Syndromes
- 23 Microdeletion and Microduplication Syndromes

F23

270,000 JPY
297,000 JPY incl. tax

The popular standard plan **Recommended**

- Aneuploidy of chromosome 13, 18, 21
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- All-Chromosome Partial Deletion and Duplication Syndromes
- 23 Microdeletion and Microduplication Syndromes

G23

240,000 JPY
264,000 JPY incl. tax

Thoroughly covers the 3 basic conditions and 23 microdeletion syndromes

- Aneuploidy of chromosome 13, 18, 21
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- 23 Microdeletion and Microduplication Syndromes

A23

180,000 JPY
198,000 JPY incl. tax

● Light Plan

Adding extra peace of mind to certified facility testing

- Aneuploidy of chromosome 13, 18, 21
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- Microdeletion • Microduplication Syndrome (22q11.2)

Oms

140,000 JPY
154,000 JPY incl. tax

A standard plan designed for families

- Aneuploidy of chromosome 13, 18, 21
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)

A

120,000 JPY
132,000 JPY incl. tax

Reliable information in a compact package

- Aneuploidy of chromosome 13, 18, 21
- Microdeletion • Microduplication Syndrome (22q11.2)

Om

110,000 JPY
121,000 JPY incl. tax

The first step, for under 100,000 yen

- Aneuploidy of chromosome 13, 18, 21

O

90,000 JPY
99,000 JPY incl. tax

Focusing on the most common conditions

- Aneuploidy of chromosome 21
- Sex chromosomes (Singleton)
- Presence of Y chromosome (Twins)
- Microdeletion • Microduplication Syndrome (22q11.2)

Hms

110,000 JPY
121,000 JPY incl. tax

Pinpoint testing for specific concerns.

- Aneuploidy of chromosome 21
- Microdeletion • Microduplication Syndrome (22q11.2)

Hm

80,000 JPY
88,000 JPY incl. tax

Pinpoint focus specifically on Down syndrome.

- Aneuploidy of chromosome 21

H

60,000 JPY
66,000 JPY incl. tax

Options

Know early, without waiting for 10 weeks.

Early (Under 10 weeks of pregnancy)

11,000 JPY incl. tax

Immediately to the next testing slot

Priority Service

44,000 JPY incl. tax

Preparing for the future together

Carrier Screening Test 231 (Couple's Testing)

*Only matched parts are reported.

220,000 JPY incl. tax
(Overseas Testing)

July 2026: Next-generation testing

NIPTy-MONO

330,000 JPY incl. tax

Amniocentesis Support

(Can only be added on the day of the test)

Preparedness of up to 100,000 yen

Light

3,300 JPY incl. tax

*Subsidizes up to 100,000 yen
